Christmas 2024

Christmas Tableware, Cracker
& Party Products

Welcome to our Christmas 2024 catalogue.

We know that Christmas is a very important season for the hospitality sector and in 2024 this continues to be very much the case. We have been making catering crackers and co-ordinating tableware for over 35 years and we are once again proud of what our design team has created. We hope that it contains all your cracker, tableware and party products requirements from a design, range and price point perspective.

We know how important the environmental aspect of the range is and we are pleased to say that we have removed all plastic from our cracker contents. All our crackers are recyclable and this is stated on the mottoes. We have new designs in our FSC® certified collection this year.

Adding value to an offer is also very important to everyone and being able to offer co-ordinating crackers and tableware from one source allows for this. As a UK tableware manufacturer we are in the unique position to understand the requirements of the Christmas 'away from home' market and, as a result, for 2024 we have new tableware and matching cracker collections. These include our updated very popular Season's Greetings range, our new very versatile and appealing 'Jolly Holly' budget range and our brand new Calgary 'enviro' range. This is on top of our comprehensive range of napkins and table coverings featured on pages 4-12 which will co-ordinate and complement many of our crackers across different sizes and content options.

We are also very proud to continue to work with the fantastic charity Young Minds who set out to ensure that young people get the best possible mental health support and have the resilience to overcome life's difficulties. By buying these crackers you are helping support this fantastic cause.

Another key strength of ours is our stockholding and service. We encourage you to order early to make sure you can get exactly the cracker and tableware you desire but we do carry healthy stocks and, as a loyal customer, we would look to be able to offer you options as a top up into December.

If you would like some more information please do get in touch and one of our specialist sales team who will be only too happy to discuss your requirements for 2024.

At Swan Mill we are always conscious of our impact on the environment and preserving the planet for future generations.

Our napkins and tableware are manufactured at our site in the UK on FSC® paper which reduces our carbon footprint. Plus, we are constantly making improvements within our cracker and party product offer to make it more sustainable.

Several years ago we took out all single use plastic from our crackers, we have introduced paper content which is recyclable and we are transitioning all our crackers to have plastic free content. This means that 100% of our crackers are either completely plastic free or have reusable content.

In addition, 100% of our crackers are recyclable and many are made from FSC or recycled board.

Plus, all our packaging is made from recycled cardboard and can be fully recycled.

We have introduced some colour coding so you can tell those that are FSC or entirely plastic free on top of being 100% recyclable.

 This means the cracker itself and its content is made from mixed FSC® certified paper

 This means the content inside your cracker is plastic free
