CAST IRON

Pots and pans made of cast iron are suitable for all kinds of ovens except for microwave. Never place hot items directly onto unprotected surfaces.

Uncoated pots and pans

Rapeseed oil has been used in the firing process of this kind of material. In order to avoid corrosion, cast iron products should always be slightly greased with cooking oil. Before using it for the first time, rinse the cast iron products under clean running water. Used items should be cleaned with hot water only – do not use dishwashing liquids. Recommendation: Clean the rustic pots and pans with paper towels only.

To remove burnt food particles a “peeling” can be done from time to time by rubbing 2 tablespoons of salt with a dry tea towel.

Enameled cookware

can be cleaned in the dishwasher, if necessary. There is no need to grease these products before storing, but make sure that they are dried properly.

Teapots made of cast iron

Before using it for the first time, rinse the teapot thoroughly several times with warm water.

Heat the teapot only if it is filled by at least two thirds.

Cast iron teapots are suitable for all ovens and cookers except for gas cookers. By no means may it be heated in a microwave. Having used the teapot, please rinse it with warm water only. It is not dishwasher safe! Do not use any abrasive sponges or similar devices.

CONCRETE

The concrete bridge of the condiment server is neither dishwasher-safe nor suitable for the oven or the microwave. Cleaning by hand using a pH-neutral detergent and warm water is recommended.

Please be aware that despite a coating concrete has a porous surface. Contact with oil-based and high-acid foods may cause stains and can affect the surface of the product. Also when placing coloring foods such as saffron or curry on the marble, discoloration may occur which can not be removed.

DISPOSABLES

Aluminium tubes

Our aluminium tubes are manufactured in a pharmaceutical production facility, meaning that they are produced and packed under strict hygienic conditions. The cap is sealed with an aluminium membrane which serves to protect the filling until it is opened. The

piercing spike, which is incorporated into the screw cap, ensures hygienic opening of the tubes. The tubes are filled via the open rear end. The fill level should not exceed two-thirds of the tube in order to allow subsequent folding of the end.

Sugar cane

The presented disposables consist of 70% sugar cane and 30% FSC wood cellulose, and are completely biodegradable, ecological and sustainable.

Coconut

Coconut is a natural, very hard and robust material. As a natural product, the dimensions and colour shades are never the same and can vary. The products are sustainable and environmentally friendly.

FELT

The felt used as a stand for the presented vases is an industrial felt and is not intended to come into contact with food. It is for decoration purposes only. Should it become dirty, it can be wiped with a damp cloth or vacuumed with a hand-held vacuum cleaner. As felt is a natural product, slight colour variations may occur.

GLASS

All glass items are dishwasher safe and – after removing metal holders – microwave safe.

The glass straws can also be cleaned by hand with a cleaning brush, as offered in the Playground range. The glass straws are resistant to temperatures from –50°C to 150°C.

LEATHER (ARTIFICIAL)

Artificial leather is an industrially manufactured combination of textile fabrics, plastics and plasticizers. Although this mixture makes it more durable and easier to care for than it is for natural leather, it can crack or fade if handled improperly.

Simply clean the placemats LAV with a mild detergent on a damp cloth.

Then wipe off and rub dry. Please do not use detergents containing alcohol or oil! Artificial leather is not suitable for the dishwasher.

LEATHER (RECYCLED)

Placemats DUMBO, EMU and GATOR are made of recycled leather (85%) and natural rubber (15%). They can easily be cleaned using a damp cloth and a mild detergent. Simply wipe off and polish it dry. Please note that they are not dishwasher safe!

This robust and durable natural material is water repellent, scratch resistant, light and colorfast as well as heat resistant up to 80°C.

MARBLE

As marble is a natural product, deviations in structure and color are possible.

Items made of marble are not dishwasher safe and may not be used in the microwave or oven.

Please clean these items by using pH-neutral detergents and warm water only. Be aware that prolonged contact with high-acid food (particularly citric acid or fruit acid) can affect the surface of the marble product.

NATURAL STONE

The natural stone is a complete untreated natural product, which can lead to deviations in color, structure and size.

The natural stones have a porous surface and therefore stains (esp. grease) are difficult to remove. Be aware that prolonged contact with high-acid and greasy food (particularly citric acid or fruit acid) can affect the surface of the stone.

Please clean these stones by using a damp cloth and pH-neutral detergents. To maintain a long-term good look, natural stones may be treated with cooking oil from time to time.

SLATE

Slate as a natural product can have slight variations in color, structure and size, which are unavoidable due to the material's characteristics.

Slate is not oven-proof, dishwasher-safe or microwave-safe.

Please clean these items by using a damp cloth and pH-neutral detergents only. Please do not use abrasive cleansers / scouring sponges, as the slate surface might be attacked or scratched. Note that it is difficult to remove stains (esp. grease) from natural slate. To maintain a long-term good look, slate may be treated with cooking oil from time to time. Be aware that prolonged contact with high-acid food (particularly citric acid or fruit acid) can affect the surface of the slate item.

Please note that slate products chip easily, which can result in sharp edges. Therefore please use slate products with utmost care.

STAINLESS STEEL

All PLAYGROUND articles made of stainless steel are dishwasher-safe.

Burnt food residues can be removed easily from the inside or the bottom of the articles with the abrasive side of a cleaning sponge. Do not use steel wool for cleaning.

In general, stainless steel products should not be stored in a damp environment for a longer period of time.

Do not use these articles in a microwave oven.

Serving baskets are for food presentation only – do not use them in a deep fryer.

PVD-coated stainless steel bowls can be cleaned in the dishwasher. Do not use abrasives when cleaning by hand, as these will leave scratches on the surface. Fingerprints can become visible on the surface when the product is in use. These can be removed with a silver cleaning cloth; alternatively, use hot water and rub with a dry cloth.

STONEWARE

Within our assortment PLAYGROUND, all articles made of stoneware are dishwasher-safe, heat-resistant, suitable for microwave and freezer.

Due to the surface texture of some stoneware products, metal marking can occur. This metal marking can easily be removed with an appropriate cleanser and does not impact functionality and hygiene in any way.

TERRACOTTA

The offered articles made of terracotta can be used in the oven, the microwave and the dishwasher.

After cleaning please dry the items completely and store them in a well-ventilated and dry place.

Please avoid high temperature differences and do not place hot terracotta products on cold surfaces.

TERRAZZO

Terrazzo is a material made of white cement with natural stone chips. Therefore each platter is unique and slight color variations can occur.

The offered terrazzo platters should not be used in the dishwasher, the microwave or the oven. For cleaning, please use a pH-neutral detergent and warm water. Be aware that prolonged contact with high-acid food (particularly citric acid or fruit acid) can affect the surface. Also when placing coloring foods such as saffron or curry on the terrazzo, discoloration may occur which can not be removed.

TEXTILE

The presented bread-paperbags are made of sustainably generated natural materials. The material is a mixture of cellulose and latex and can be washed in the washing machine at 30°C. The product is tear-proof, durable and can be ironed at suitable temperatures, if required.

TINPLATE

The tinplate mini springform is not suitable for the microwave or the dishwasher, but can be used for baking in the oven.

For cleaning, please use a pH-neutral detergent, a soft sponge and warm water. In general, tinplate products should not be stored in a damp environment for a longer period of time. Please dry them immediately after cleaning.

WOOD

Wood is a natural product, whose shades of color can vary.

All wooden articles of our PLAYGROUND collection are neither dishwasher- nor microwave-safe. Please clean the wooden items with a damp cloth only.

Our wooden articles are properly sealed with a food-safe oil. If necessary, linseed oil can be used for a retreatment.

Products made of bamboo can be cleaned in mild, warm soapy water.

ICONS

Dishwasher-safe

Not dishwasher-safe

Suitable for microwave

Not suitable for microwave

Oven-safe

Not oven-safe

Temperature-resistant

Do not use for acid food

Biodegradable

Machine washable at 30°C

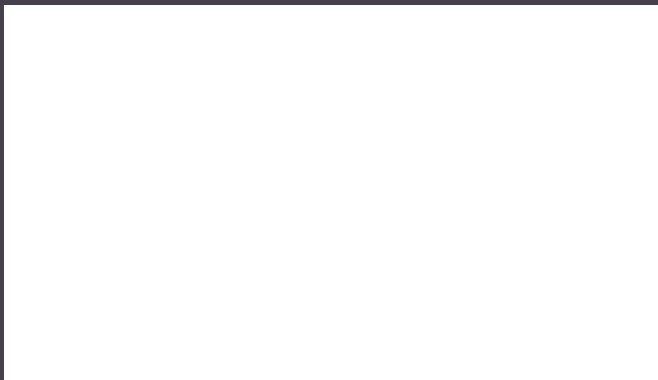

100% sustainable
