The image shows the packaging for Washroom Cleaner RTU. At the top, it says 'No CFC's • Ozone Friendly'. The product name 'WASHROOM CLEANER' is in large red letters, followed by 'Ready-to-use' in a smaller font. Below this is a small icon of a person cleaning. The text describes it as a perfumed all purpose cleaner that cleans, disinfects, and deodorises in one. It lists various surfaces it can be used on, including walls, floors, paintwork, tiles, formica, glass, chrome, stainless steel, enamel, and porcelain. It also specifies that it is for use in all toilet areas, baths, sinks, and showers. The 'DIRECTIONS' section instructs to spray the product onto the surface and wipe with a clean damp cloth, and to rinse the cloth frequently in clean water. It also states 'DO NOT DILUTE PRODUCT'. A barcode is present with the number 5 018200 368317. Below the barcode is a pH scale from 1 to 14, with the product's pH indicated as being below 3. The bottom of the packaging features the 'GREYLAND' logo, the volume '750ml', and the code '7563/39'. Contact information for Greyland Ltd is provided at the very bottom.
